Feedback on team dynamics

1. How effectively did your team work?
 - a. Rather effective, considering that most of us are located in different time zones. We have utilised asynchronous communication through the Slack chat client. Additionally, we have held weekly meetings, where we shared updates and feedback to each other's work.
2. Were there any behaviours of your team members which were particularly valuable or detrimental to the team? Explain.
 - a. Absolutely yes. Alberto was and is exceptional in his contributions, as he has the most experience in this field. He simply delivers amazing ideas and contributions at every moment of our project.

3. What did you learn about working in a team from this project that you will carry into your next group/team experience?
- Sometimes it's important to avoid discussing certain things (rather unimportant ones), in order to avoid potential conflict. Everybody wants to contribute, but sometimes those contributions could have a countereffect.
