

Feedback for RRMP Research Proposal Presentation [Formative]

Tutor completing formative feedback: Karen Outram	Student number: Djordje Savanovic
Details of any extensions etc:	Submission Attempt: Formative

Thank you for submitting your formative.

The subject and research context do appear to be focused. For the actual Research Proposal Presentation, do ensure that tangents don't occur. Keep the presentation focused on the key aspect of discussion that you feel is important relating to your title.

Noted at this stage, you have not identified key literature that you intent to engage with, and so do ensure that when the summative comes around that you have collated good, cross-sectional and varied research for the content of the summative.

Your formative is outlined in bullet points and this is fine for formative. As discussed through seminars, ensure that through your transcript for example that full paragraph based discussion occurs.

This feedback can be used as part of your artefacts for your e-portfolio summative.

***The comment is added to every student formative feedback sheet:** Please ensure that when you complete your summative submission for the Research Proposal Presentation, that the research, content and context is **COMPLETELY DIFFERENT** to your Literature Review. This is for several reasons; you need to avoid self-plagiarism, [if content is close to or similar to the Literature Review TURNITIN will detect this], a summative can only be graded once and so if your LT and RPP are too similar theoretically it is the same piece of work and summative academic work has to 'build' upon research so that every summative submission is different from the previous summative submission. *This is a standard academic rule in all academic writing/summative submission.* And so, you can 'build' upon your subject from the Literature Review to the Research Proposal Presentation, but it **MUST** different from the Literature Review.

The burden of ensuring each summative is 'new' rests with the student, and so please do observe the above when completing all summative submissions, thank you.

Wishing you the best of luck now for your actual summative submission,

With best wishes

Karen
