Feedback for RRMP Literature Review [Formative]

Tutor completing formative feedback: Karen Outram	Student number: Djordje Savanovic
Details of any extensions etc:	Submission Attempt: Formative

Thank you for submitting your formative.

From your submission, App design is the digital genre that you are examining. For the most part your discussion does have a focused angle. Noted in your research you do reflect on several different aspects that can be part of/reflect different discussions around specifics of App design in the context that you have chosen. My advice is to very focused regarding what you chose to discuss regarding your chosen App development as you only have 2,000 words to use in your actual summative itself.

Its good to see the use of citation through part of the formative. For the actual summative, ensure that citation is occurring all the way through your content. For formative formal academic writing isn't completely necessary, however for summative ensure that your writing style is wholly formal and academic. Also remember to apply page numbers to your summative document. Ensure that your summative has a critical 'pros and cons' view of discussion, looking at both the positives and negatives of the research that you choose to engage with.

Wishing you the best of luck now for your actual summative,

With best wishes

Karen
